Leg 4-1

MEMORANDUM FOR: Chief, Domestic Networks Division
Office of Communications

ATTENTION: Chief, Technical Support Branch

FROM: [REDACTED]
Chief, Administrative Staff, ICS

SUBJECT: Secure Line for DCID 1/2 Data Base Maintenance System

25X1

1. This memorandum will confirm earlier discussions with [REDACTED]
[REDACTED] regarding an immediate requirement for a secure line
between the Community Headquarters Building (CHB) and the CIA
Headquarters Building. This secure line is needed to support the DCID
1/2 Data Base Maintenance System for the Office of Community
Coordination, Intelligence Community Staff, at CHB.

25X1

25X1

2. The particulars for the DCID 1/2 Data Base Maintenance System
are as follows:

- a. Type of Equipment: Teletype Corporation
MOD 40 Teletypewriter and Printer
- b. Bit Rate: 9600 bps
- c. Date Required: As soon as possible.
- d. Interface: With COINS system and data bases.

3. This equipment is a standard COINS II terminal which will be
provided without cost by the COINS System Manager. Necessary software
also has been prepared.

4. The DCID 1/2 Data Base Maintenance System will be used to
enable the rapid update of priorities data base, direct availability of
data base and changes thereto to COINS users and reduce administration,
paper generation and distribution.

ADMINISTRATIVE - INTERNAL USE ONLY

SUBJECT: Secure Line for DCID 1/2 Data Base Maintenance System

5. We would appreciate prompt implementation of this requirement. We understand from our earlier discussions that there are uncommitted lines leading to the Model T-96 Multiplexer at CHB that may satisfy this requirement. If you have any questions on this matter, please refer them
